In Memory, December 2006 - September 2007

These beloved greyhounds have recently passed over. We'd like to honor them by publishing their names in our newsletter. Please let us know if there is a hound who should be remembered. We hope the list is always short.

We encourage friends and relatives to consider a donation to GPA or the Blue Fund in their hound's memory. Memorials are greatly appreciated and will be acknowledged with a note to the family.

The Gala is Coming!

The 13th Annual Gala Greyhound Gathering will again be held at the Waukesha County Expo Center Arena. Hundreds of greyhounds and greyhound lovers will descend upon the arena to support Greyhound Pets of America-Wisconsin by purchasing raffle tickets, buying GPA apparel and supporting our vendors. A listing of some of the activities we have scheduled for the day is on the inside of this newsletter. Times on this list are subject to change, so be sure to grab a schedule of events at our registration table on the day of the Gala which will give final times and locations within the arena.

Each year, we are excited about this event, and 2007 is no different! We have a lot of fun planned for the day and we look forward to seeing all of you there. Meet up with old friends, give your adoption rep an update on how your hound is doing, introduce

yourself to the people you only know by their forum names and most of all, shop, SHOP, SHOP! and have fun!

As in years past, all well-mannered greyhounds and non-greyhound canine siblings are welcome at the event, however, please remember that not all greyhounds are familiar with small dogs or other breeds of dogs. It is your responsibility to handle your greyhound or other dog appropriately to make this a safe and fun event for everyone.

Please use caution during dog interaction, and keep your dog on leash and under your control at all times.

And now.....Let's Go Gala!

Announcing our logo contest winner...(drum roll please!)....

Karen Hertzberg

Thank you, Karen, for submitting the winning logo! Look for Karen's winning design on our t-shirts and other Gala items. We had many wonderful entries this year and hope to see everyone submit new designs again in 2008!

Please also take a look at the GPA Retail booth for the Children's Logo Contest winner, and other honorable mention logos that you might see printed on other various

This year, we are also printing a limited edition POSTER, with a design that was submitted last year. It's so cool, you'll want to make sure to get one! Don't miss out!

Part 1: How to protect your dog and prevent escapes

Part 2: What to do if your dog does escape (next issue)

Although as greyhound owners, we Toni was carrying packages from her are aware of precautions to prevent our greys from getting loose, the unthinkable can happen. It is our hope that you will read and save this issue, make use of the checklist and tips, and share the articles with family and friends who may take care of your dog(s). Involve everyone in your house in forming good habits that will ensure your dog's safety.

In the blink of an eye, your beloved Toni had to wait 3 long hours until the greyhound can go from hanging out in your back yard to zooming down the street. They may dart out the front door or from the door of the car. A leash may have been dropped. It has happened to most of us. Hopefully you will get lucky and your greyhound will come back to you or be recovered quickly.

These stories are not being shared to point fingers at any particular adopters or owners. Their situations are not unique. They have been kind enough to share their stories with the hope that others will learn from their experiences.

Kathleen and Daniel didn't know about martingale collars when they adopted their first greyhound from the humane society. When two unleashed neighbor dogs came up to meet her, Smiley backed out of her buckle collar and ran away across the street. Kathleen used her happiest voice and called, "Smiley, come here girl." She turned and went back been called back home.

car to her house. As she went through the gate into the yard, her greyhound Cleo darted past her. Toni and her husband searched the area that night with no luck. The next morning, one of Toni's phone calls was to the local animal control. Animal control called her back a couple hours later after picking up a dog that fit Cleo's description. Because Cleo did not have any identification. truck was back at the facility to confirm that it was Cleo who had been picked up.

Jaime let Boxer out as usual one morning. When she let their other greyhound Mel out, she realized that Boxer was not in the yard and saw the open gate. Jaime's mother and father, Joyce and Ken, drove around trying to find Boxer for about 45 min- • Your hound should always be utes. They met at home not knowing what to do next when the phone rang. Fortunately, although Boxer only wears his martingale when he goes on outings, he wears a tag collar at all times. A woman in a nearby park was able to call the family when Boxer approached her.

From this story, you can see how critical it is to have up to date contact to Kathleen after the other dogs had information on tags. Remember to update the tag if any of your person-

al information changes. If your dog is being watched by someone while you are on vacation, a temporary tag with their information should be attached as well.

Over time many of us have become more complacent and sloppy. Your dog has either gotten away and returned quickly or never escaped, so you have nothing to worry about right? Wrong! No matter how long you have your dog, and no matter how many times he may get away and come back, we can assure you that each time it happened the life of your dog was at risk. They count on us to keep them safe and healthy. They do not know enough themselves to do that. So what can we do as greyhound owners to help keep our hounds as safe as possible?

The saying goes "An ounce of prevention is worth a pound of cure." True enough, but what does that prevention look like? Here are some guidelines.

- either on a hand held leash or in a secure fenced in area.
- Leave a collar with tags on your dog at all times.
- Microchip your dog.
- Do not enter or exit fence gates while dog is in yard.
- Secure all fence gates with locks.
- Make sure entire fence is secure no holes or gaps.
- Secure all house doors teach children and visitors safety rules. (continued on Page 3)

GPA-WI is a non-profit all volunteer organization. Everyone working for GPA-WI is a volunteer - from the kennel day workers to the people doing home visits and adoptions. Making GPA-WI work takes a lot of hard work from volunteers JUST LIKE YOU! The volunteer opportunities are fun, interesting, and extremely satisfying. If you are interested in becoming involved here is a small list of some of the things we need volunteers for:

- kennel workers (walk and groom the hounds, help with socialization and personality assessments of the hounds, and assist with clean up)
- foster homes (open your home to a greyhound for a few weeks as they search for their forever home, help the dog get acclimated to home life)
- event volunteers (come to events and meet & greets, share your love of the breed with others)
- crafts people (donate your goods and/or skills to raise money for the hounds)
- transportation (help drive a hound to or from a foster home or medical appointment)

If you have other ideas or skills we would love to know how you think you can help! We're open to ideas! No amount of time is too small and all volunteers are welcome. It takes all of us to keep this GREYT organization running strong. If you are interested in getting involved, please contact your adoption coordinator or any of the GPA-WI board members. We would love to hear from you!

We have also been asked often "Who are the board members?" In order to honor that request, here is a list of our current board of directors and how to contact them.

Ask Kyra...

Dear Kyra--

What is up with the human obsession with "sit?" My mistress is obsessed with "sit" and spends tons of time telling me to do it! What's the big deal? I think I am pretty smart, but my butt just doesn't do that! I can do lots of other stuff to make my mistress happy, like keeping her warm in bed and pottying right away in the rain. Will she still love me if I can't do this?

-- Cheetah

Dear Cheetah.

I have never understood the human obsession with this behavior either--they really are quite fixated on it! The answer is that yes we CAN be trained to sit, but though some greyhounds do it naturally, MOST of us find it HIGHLY uncomfortable That is why human groups like the AKC do not require us to do it! You see, our hip sockets are so deep and tight that even when we DO sit our butts can't touch the ground. It your human insists, tell her to hold a Itreat just below your nose and slowly raise the treat while GENTLY pressing on your lower back and saying the command. Another technique is to say the command "sit" while hugging your legs. This puts you into a sitting position which should be rewarded with a yummy treat. Never fear, your human will love you either way, but learning to sit is a greyt way to get yummy treats! By the way, EXCELLENT work on pottying fast in the rain!

Lost Dogs - continued

- Leash dog and hold securely before allowing dog to exit vehicle or house.
- Wrap the leash around wrist.
- Do not remove leash from dog until dog is in vehicle or house with doors closed.
- Do not open car or house windows far enough for dog to sneak through.
- Secure patio door screen windows with baby gates.
- Periodically check that the martingale collar or harness is fitted properly.

In addition to the items listed above, training your greyhound may also reduce the chance that he will escape. Cues such as sit, down, stop, and wait can be invaluable if you see your dog approaching an open gate or traffic. These cues are among those that you and your dog will learn in a positive training program.

Despite your best intentions, the unimaginable happens and your greyhound is loose. You were not able to recover him quickly (within an hour). What do you do next? Watch for Part II of this article in the next Couch Potato Press.

Home-Baked Treats Your Hound Will Lyveby Danette Aberle

I started baking homemade dog treats soon after I adopted Annabelle in 2003. I enjoy making the treats and its actually cheaper than store bought brands. With the recent dog food recall, making my own treats gives me peace of mind knowing exactly what goes into them!

You can add or substitute a lot of different ingredients in your treats; bran, oats, wheat germ, flaxseed, and bananas all are healthy alternatives. Don't be afraid to try alternatives or experiment. Or if your dog isn't fond of something, just omit it! Either way, your dog will probably be

Two recipes that get 5 paws from my hounds:

PeaMutt Butter Biscuits

2 tbsp oil 1/2 cup of peanut butter

1 cup of water

1 cup of whole wheat flour 2 cups all purpose flour

Preheat oven to 350°. Combine oil,

peanut butter and water, mix. Add flour one cup at a time. Knead to firm dough. Roll to 1/4" thick, cut into shapes. Bake on ungreased cookie sheet for 20 minutes or until golden brown. Cool and refrigerate.

Cinnabones

1 cup whole wheat flour

1/2 cup bran 1/2 cup brewers yeast

1/4 cup wheat germ 1/2 tsp cinnamon

2 tbsp honey

2 tbsp molasses

2 tbsp oil 1 egg

1/3 cup milk

Preheat oven to 350°. In large bowl combine dry ingredients. In separate bowl mix together all the wet ingredients. Gradually add mixture to dry mix & knead dough. Roll to 1/4" thickness. Cut into shapes. Bake on ungreased cookie sheet for 15mins or until light brown. Cool. Refrigerate

Additional Tips:

Because these treats do not have any preservatives, be sure to refrigerate or freeze the extras.

To save time, instead of using cookie cutters, simply score the treats with a pizza cutter prior to baking. After baking and cooling, break into bite-size pieces.

For extra crunchy treats, leave them on the cookie sheet in the oven for an hour or two, or even overnight, so they dry out. Store in ziplock bags.
